#### **REMARKS**

This Amendment is Supplemental to the Amendments dated October 31, 2001 and November 1, 2001. Upon entry of this Supplemental Amendment, claims 1-77 will be pending.

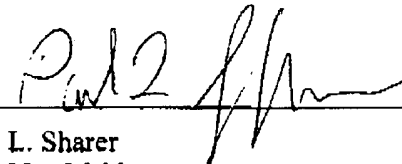

Relative to the Amendment submitted on November 1, 2001, the instant claims differ in that:

- (i) The term "photo-generated acid precursor" has been replaced in claims 1, 16, 19, 28, 45, 46, and 47 with the term "photo-generating acid precursor" to correspond to the terminology used in the specification.
- (ii) The term "cationically polymerizable component" in claim 3 has been deleted and replaced with "first epoxy resin".
- (iii) Claim 62 has been revised to point out that the article is formed by solid imaging the composition of claim 59. Support for this revision can be found, for instance, on page 1, lines 6-7 and lines 16-18, of the specification.
- (iv) Claim 77 has been newly added and features that the "at least one other epoxy" includes a cycloaliphatic epoxy. Support for this amendment can be found, for instance, on page 5, lines 13-21, of the specification. Applicants further note that claims featuring a "cycloaliphatic epoxy" were already pending (*See, e.g.*, claim 15).

No new matter has been introduced with the above amendments and new claim.

It is respectfully submitted that the instant Application is in condition for allowance and a Notice to that effect is earnestly solicited. If, after reviewing the above, the Examiner believes any issues remain unresolved, the Examiner is encouraged to contact the undersigned by telephone to expedite the prosecution of this application.

Respectfully submitted,
